### LAKE LEVEL

DNR Summer Lake Elevation Expectations – 927.86 feet  
Average Lake Elevation – 927.78 feet

### LAKE MANAGEMENT PROGRAM

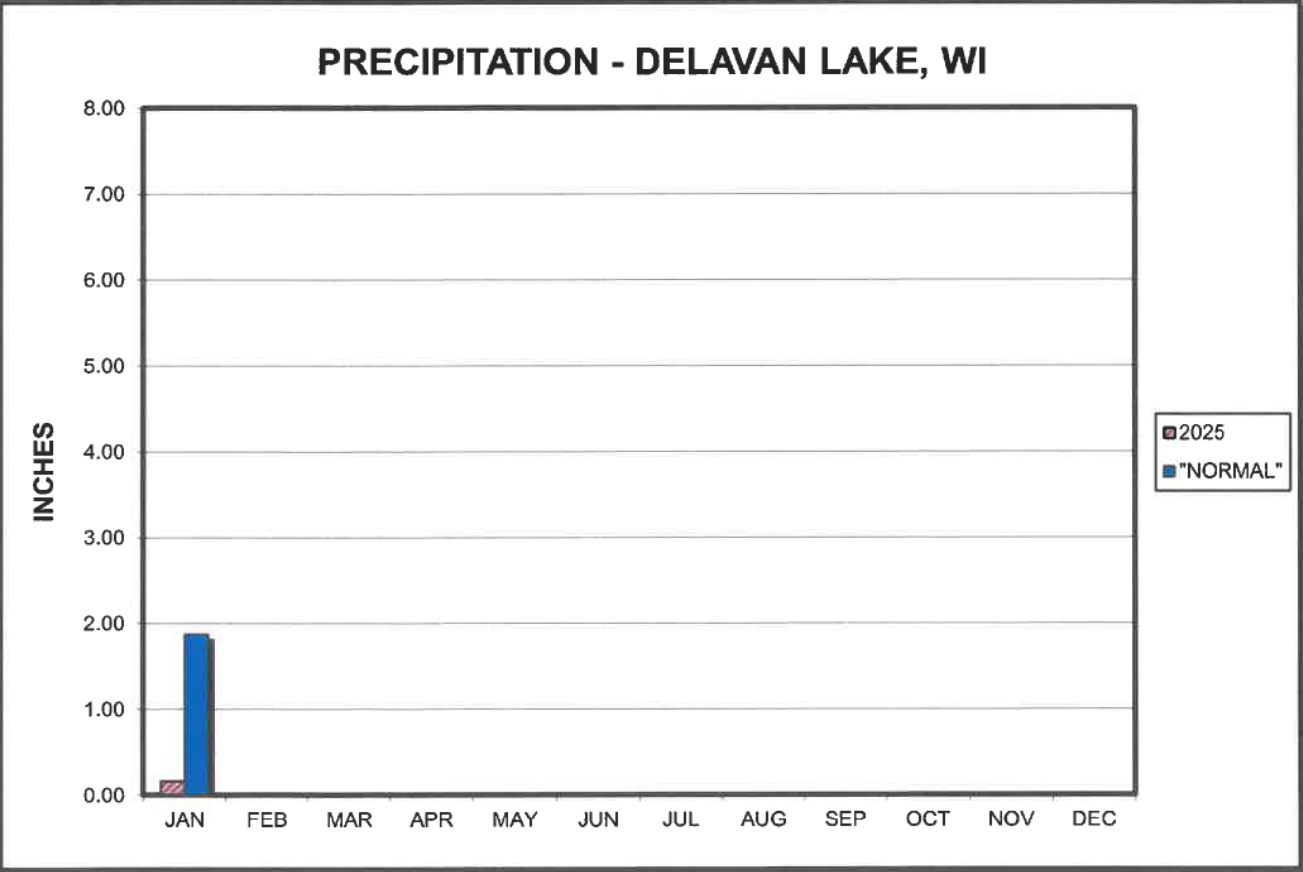

Weed Harvesting equipment is getting repaired and ready for spring.

We finished the year with a record harvest of 8,028 cubic yards removed from the lake, which equates to 1,204 LBS of phosphorous removed.

Lift Station #2A project is completed to the point of just punch list items.

December warm temperatures have prevented the lake from freezing over and areas with ice are a concern for thin ice conditions.
